**Health Advocate, Inc. Relocates to Expanded Offices
to Accommodate Dramatic Growth**

**Company takes 26,000 square feet
tripling its office space**

Plymouth Meeting, PA. May 23, 2005 – Health Advocate, Inc., the nation's leading health advocacy and assistance company, is pleased to announce it has moved into 26,000 square feet of new and expanded office space to accommodate its dramatic growth. The company doubled its size in 2004 and now serves more than 3.25 million Americans nationwide. Previously the company occupied 8,000 square feet in nearby Blue Bell, PA.

"As a fast growing company, we are continually making investments in our business to better serve customers," commented Michael J. Cardillo, President and CEO of Health Advocate, Inc. "Our new offices and enhanced infrastructure provide a solid foundation to support our highly unique and personalized service," continued Cardillo.

Health Advocate was founded to help members navigate the healthcare and insurance systems, providing assistance with challenging medical and administrative issues. Designed to save clients both time and money, the program helps individuals get the most value from their healthcare benefits. An especially innovative feature of the program is coverage for employees' parents and parents-in-law, in addition to their spouses and dependent children.

"A key driver of our growth is our ability to provide value and cost savings to our customers and their employees and families. Our team of experts helps our clients and members save time and money and helps them get the most from their healthcare experience," continued Cardillo.

Health Advocate serves 800+ client organizations, representing employers and other plan sponsors of all sizes and types across the country. Its growing client list includes national Fortune 500 companies, regional and local health and hospital systems, colleges and universities, law firms, manufacturers, retailers and other employers, unions, third-party administrators and insurers.

Health Advocate members enjoy unlimited access to Health Advocate's trained staff of Personal Health Advocates, typically registered nurses, supported by a team of medical directors and administrative experts. Health Advocate does not replace health insurance, rather it offers a broad array of cost-effective services providing assistance in helping to arrange appointments with specialist physicians and best-in-class medical institutions; coordinating complex clinical issues; accessing community resources; finding senior care services that fall outside traditional health insurance coverage and solving administrative issues.

About Health Advocate, Inc.

Health Advocate was founded to help Americans deal with many of the problems they routinely encounter when accessing the healthcare system. The company currently serves more than 3.25 million Americans. Through its relationships with more than 800 employers, unions, third-party administrators, insurers, and other organizations both large and small, nation-wide, Health Advocate offers its clients a broad spectrum of time and money saving advocacy and assistance solutions to help organizations and their respective employees and members more easily navigate the complexities of the healthcare and insurance systems. The company, independently held, is headquartered in suburban Philadelphia. More information can be found at www.healthadvocate.com.
