THE NEWSPAPER FOR NEW JERSEY

## New Program Helps Members Navigate Healthcare System

Imagine having someone on your side who knows the ins and outs of the healthcare industry – someone who can quickly get you in to see a specialist you can't get an appointment with, to solve that claim you can't resolve, and help you find quality senior services for a loved one.

Member Al Paulvin is pleased to announce a new partnership with Health Advocate, America's premier health advocacy and assistance service designed to provide a range of quality services to assist employers and their employees deal with the complexities of the healthcare and insurance systems.

Health Advocate will offer Chamber members preferential discounts on services through the Chamber Advantage Program. Each participating member will be assigned a Personal Health Advocate, a registered nurse, back by a team of medical directors and administrative experts.

The company serves as a liaison for clients with healthcare providers, insurance plans and other health related community resources. It offers a broad menu of cost-effective services, including providing assistance finding primary care and specialist physicians, centers of excellence, and solving claims,

billing and related administrative problems.
