## **Hampson Advocates for Hearing Aid**

Ed Hampson, RN, a personal health advocate at Health Advocate, Blue Bell, PA, has once again made the evening news. Hampson was featured recently on *CBS Evening News* with Dan Rather for aiding a 12-year-old boy in obtaining a new hearing device.

After the device broke down at least 10 times in a year, Hampson convinced the insurance company that a new device was needed because it was vital to the child's well being.
