

Health Advocate will continue adding workers

By John George, Reporter

Health Advocate, Inc., which has added 60 employees since the spring, expects to add another 30 employee during the fourth quarter.

On September 23rd, the Plymouth Meeting, PA company, which health businesses and their employees navigate the complexities of health insurance and medical- service delivery, held a ribbon- cutting ceremony for an expansion at its Walton Road offices where it now occupies nearly 100,000 square feet.

Health Advocate, founded 10 years ago by a group of former U.S. Healthcare executives, has also upgraded its technology and communications systems to support growth.

The company provides healthcare advocacy and assistance services to more than 22 million Americans through more than 8,000 client relationships. In addition to its core health advocacy program, the company's other services include wellness advocacy, EAP programs, chronic care management and decision support programs.
